

14 March 2018

Dear Parent / Carer

JOBS & CAREERS FAIR
Parents Information Evening
Wednesday 21 March 2018 - 4.00 to 7.00pm

Whether your child has just started at the Academy, is thinking about their GCSE choices, preparing for their final exams or completing Sixth Form, we have organised an event that should be of interest to you and your child.

When making a choice about a future job and how qualifications can help to secure the right career, it is important to know all the options.

We have organised for a number of employers and apprenticeship training providers to come along to share their knowledge with parents. You can also learn about apprenticeships for more experienced workers if you would like to re-train. **Many employers are also looking employees – so if you are looking for a new career, this could be the right place for you.**

In partnership with Nottingham City Homes, we will also be offering you and your child the opportunity to 'have a go' at a number of construction-related trades including plumbing, painting & decorating and electrics. There will also be the chance to meet some young people who are already working as apprentices.

The event will be informal and students will have the chance to try a number of trades within the construction industry as well as talk to specialists from a range of other industries including hair and beauty, health and social care, sports, engineering and computing.

The event provides a great opportunity for students to talk to colleges about further education.

We do hope that you are able to attend.

Yours sincerely
